Thank you Ms. Coyne. I too spoke to Secretary Slater about it last month. He said he was looking into it personally. Please advise.

Hi Mr. Farquhar,

Thank you for reaching out. As I shared with Ms. Slater, our maintenance team visited the site and spoke with the local fire department and they reported that they have not had any issues with the metal plates and that even their larger vehicles have been fine passing over these. We will continue to monitor the area and make sure no additional measures that we can implement are needed as time goes on. We will also continue to monitor funding sources and if anything changes we will update you.

Thank you,

**Shannon Coyne**

Ms. Coyne,

I attach a scan of a letter that I am sending to you on behalf of the Sandy Spring Civic Association. I will be sending the original of the letter by first-class mail. I trust the letter will be self-explanatory, but, if not, please feel free to contact me either by email or at the phone number listed below.

Craig, this is the correspondence about the longstanding horrible conditions at the intersection of Route 108 and Brooke Road that we discussed a month or so ago. I am copying you on this email, as you requested. Any assistance you can provide would be most appreciated. I am also copying Montgomery County Executive Marc Elrich's office (by email), and the Sandy Spring Volunteer Fire Chief Mitchell Dinowitz (by first-class mail).

Thanks in advance for your attention to this matter.

Best wishes,

Doug
